The King Step

Ub40

To all the entertainers in the world I man show nuff respect
Nuff respect, cause every entertainer is select
And right ya now me a go show you how to do the king step

[Chorus:]
Me a go show you how to do the king step left right,
Me a go show you how to do the king step left right,

As soon as me operator puts the music on the deck
Is pure exciting, educating, fascinating, pirate chanting
Culture preaching, perfect timing lyrics you a go get
The whistlers blow their whistle, big women say "Kiss me neck"
Some bawl "Forward", some bawl "Rewind" and some shout out "eject"
While the pirates press record pon fe dem pocket size cassettes
The MCs that chat slack fret till dem armpit wet with sweat
Because they know that slackness is a thing I man do not respect
That's why me have to show dem how fe do the King Step Left Right.

[Chorus]

Well before me start to go down in a dais yak subject
Me have to praise you Jah cause you never fail I yet
Even when satan captured me and bring me close to death
You offered me the truth and right and I had to accept
But now me find you Jah me na go keep it secret
That's why the conscious lyrics are my favourite subject
Me chat dem in the blues party, pub, club and discotheque
Me chat dem in the bookie shop while man a put on bet
And also in the gambling house when man ready fe set
And even to bad man who a walk wid dem ratchet
Me chat dem a UB40 Studio in Digbeth
And when dem want more culture dem a bawl out "Dep, Dep, Dep"
But me tell them, hold on lads you ain't heard nothing yet
"Cause now I'm gonna show ya how to do the King Step" Left Right

[Chorus]

Left right its time to walk in the light of Jah not darkness
Left right who Jab bless no man curse, who Jah curse no man bless
Left right eternal life for the man that tries his very best

Left right do bad and you'll go down in the pit that's bottomless
Left right Pato Banton has now come to preach the right
Left right left right me no partial if your black or if your white
Left right well now me know how fe do the king step
Me just can not keep it a secret
So right ya now you a get
THE KING STEP THE KING STEP THE KING STEP

Step 1, we all should know that there's one god and only one
Step 2, Is give him praises for this whole creation
Step 3, Is love your brother man cause you and him is one
Step 4, Is not to make the same mistake as Soloman
Step 5, Is to repent and beg forgiveness for your wrongs
Cause the wrath of Jah is clear to see in Revelation
So make up mind if you want to go to Heaven or Hell
Step 6, Oh yes there's more the King Step carries on
It carries on and on, and on, and on, and on, and on
Step 6, is once you know the truth to pass the message on
And do the King Step daily as you trod upon Jah land
So when the right time comes for Babylon's destruction
You'll be among the few to march towards mount Zion
Left-Right, Left-Right, Left-Right, Left-Right
