

# Only In the Movies

## Diffuser

She's burning out on apathy  
Unsure of where she wants to be  
If she could change the world I think she'd rather sleep  
18 and feeling out of placeFrustrated that she can't relate  
Knee deep in disillusion of her mental stateIn time you will learn to stand up on your feet  
'Cause only in the movies can you replay every scene  
Until it comes out cleanMove to a lower east side dorm  
She's got no friends to call her own  
Still can't get used to living far away from home  
So bored to death of being boredAmbition seems to go ignored  
Her disposition is decaying at the coreIn time you will learn to stand up on your feet  
Cause only in the movies can you replay every scene  
Until it comes out cleanAll things are good and some are bad  
It's really what you make of it  
You're locked inside a world that's planned out just for youShe's burning out on apathy  
Unsure of where she wants to be  
If she could change the world I think she'd rather sleepIn time you will learn to stand up on your feet  
'Cause only in the movies can you replay every scene  
Until it comes out clean
