

# A Casket for the Soul

## Monstrosity

Repulsive actions burning impressions on the soul  
Cascading wave of failure relinquish all control  
The grasp of terror crushing a fleeting sense of hope  
and then the same hand closes a casket for the soul This affliction will finalize your sanity  
To descension encompassing your very being  
Suffocation within the tomb behind  
the eyes of a being aspiring to its demise  
Termination forsaken for the suffering  
which embraces every fiber of your living being  
and disposing the withered remnants of a man  
in a tomb constructed for a tortured mind. Drained of all sense and reason  
Your very soul devolves  
into a state of grotesque  
Human deficiency [REPEAT 1]
