

A Map of You

New Musik

Decide where you're going to
And how far you should go
Can't you see
Don't you know
You are here
Decide where you're coming from
Make your way passing by
Can't you see
Don't you know
You are here
You are here
You are here
Decide where you want to be
And arrive when you can
Can't you see
Don't you know
You are here
