Complicated Emotions

Keisha White

Remember that very first time you walked back in my life
It was like I already knew your game, your game
You're caught in a trap, but I'll say one word
How come you don't talk to me with so much left unheardSo many things I wanted to say to your face
Never quite had the right words to say, to saySome kind of complicated emotions playing on my mind
Some kind of easy solution I've got to find
It's time to change thoughts up in the night
'Cause if I won't, what's gonna make it rightNever a day that goes by without you leaving alone
But don't come to me and try and tell me things
That I already know, I already knowSo many things you needed to say to my face
Until you do I'm walking awaySome kind of complicated emotions playing on my mind
Some kind of easy solution I've got to find
It's time to change thoughts up in the night
'Cause if I won't, what's gonna make it right?Some times feeling a little lonely, I need some one I can talk to
I don't care what you say
Maybe we gotta find something that we, we both can relate to
So that this is all we doSome kind of complicated emotions playing on my mind
Some kind of easy solution I've got to find
Some kind of complicated emotions playing on my mind
Some kind of easy solution I've got to find
