Baby I Don't Care

Lightnin' Hopkins

No way I'm gonna crazy
With you playin' with my mind took
You out to dinner but you left me
Bahind paid for the pleaseure
But I wasted my time
Cause dawn it girl I thought
That you'd be comin' to mine
Friends are always tellin' me to kick you
Aside I swear I thought that world of you
Guess what I lied
Now you ain't got it change
Cause I'm in control
I'm grivin' down the highway
And your payin' the toll
You don't have to say you want me
You don't have to sat any tears
You don't have to say you want me
Baby it's alright
Coz honey I don't care

I don't care
All the boys tried to stop me sayin'
That ain't right free to party
Stayin' out all night
I'm gonna run the show
Gonna go buck wild now
I just don't care
I wanna do it with style turned
The other cheek when I had something to say
This is what you wanted
But it round the other way
You always said the cheatin' was never
A crime guess what you weren't
The only one all of the time
Deep in your mind
I see your thought I know
You want me sometime
It hurts but you know
That something are best left unsaid
