

# Hey Mama

[qanda](#)

Hey mama, we made it pretty far  
They didn't give us half a chance, but darlin' here we are  
We kept it all together. That's saying alot  
So what do you say, we try to make it all the way, mama? Last night you walked in late and the world was new  
You filled the space with golden light and sweet perfume  
A woman leaned and whispered in her husband's ear  
As if the Queen of Sheba had just made it here  
Our friends all came to greet you  
You turned your eyes across the room to me  
And I felt so good inside to know  
As if I we had never known before Hey mama, we made it pretty far  
They didn't give us half a chance, but darlin' here we are  
We kept it all together. That's saying alot  
So what do you say, we try to make it all the way, mama? But it isn't always pretty is it? If it is, it seems that way  
Sometimes we just don't understand. If we do, we just don't say  
Still, you find a way to let me find my own way  
Let's drive away together before they even know  
We'll both look out the window and hold each other close  
We'll think of all we've been through  
And those we love the most  
And we'll feel so good inside to know  
As if we had never known before Hey mama, we made it pretty far  
They didn't give us half a chance, but darlin' here we are  
We kept it all together  
That's saying alot  
So what do you say, we try to make it all the way, mama? We made it pretty far....hey mama
