

# New to Nashville

## Raleigh Keegan

Cardboard kitchen table, dinner in the dark  
I was down to four strings on my hand-me-down guitar  
Mattress on the floor of my room  
But I was new to Nashville  
Magic in the neon, music in the night  
Felt like I was made for living in these lights  
If only then I knew  
But I was new to Nashville

A thousand dreams a day  
A thousand hungry heartbreaks coming  
But you can't walk away  
'Cause someday you just might be something  
That ain't nothing  
New to Nashville  
I was in the right place, at least a couple times  
I shook all the right hands, but they don't remember shaking mine  
I've been paying dues  
Since I was new to Nashville  
A thousand dreams a day  
A thousand hungry heartbreaks coming  
But you can't walk away  
'Cause someday you just might be something  
That ain't nothing  
New to Nashville  
I've been here for so long  
Heard so many no's  
That don't mean that I'm not still holding on to hope  
Like I used to when I was new  
'Cause some dreams do come true  
And that ain't nothing  
New to Nashville  
New to Nashville
