

# Up There

## Versaemerge

There's something up there  
It slipped out the cracks of my lips  
There's something up there  
It slipped through the cracks  
I swear from the corner of my eye  
There's something up there  
It slipped through the cracks  
I swear

No one believes me  
I can't even trust me  
The dark's deceiving  
Blame it on the television

There's something up there  
It slipped out the cracks of my lips  
I swear from the corner of my eye  
It's interesting in my head

No one believes me  
I can't even trust me  
The dark's deceiving  
Blame it on the television  
No one believes me  
I can't even trust me  
The dark's deceiving  
Blame it on the television

Medicated dreams are feeling oh calling me  
Medicated dreams are feeling oh calling me  
A noisy repeat  
I twist in my sheet  
It's chilling me round oh I can't sleep  
I only stare  
Is it really there

I swear

No one believes me  
I can't trust me

The dark's deceiving  
Blame it on the television  
No one believes me  
I can't even trust me  
The dark's deceiving  
Blame it on the television  
Blame it on the television
