Entrails Ripped from a Virgin's Cunt

Cannibal Corpse

Advisory - the following lyrics contain explicit language:

Alive alone how that they've gone dead but unburied
I've seen it unfold, terrible scenes of agony
Eyes in the darkness, echoing their madnessThe sights that have passed before them
Watching as though it has never happened
Now I only listen to what is not spokenMurder, hatred, anger, savage
Killings I have caused more than can be counted
Orgies of sadism and sexual perversion
Virgin tied to my mattress, legs spread wideRuptured bowel, yanked from her insides
Devirginized with my knife, internally bleeding
Vagina, secreting her blood-wet pussyI am eating on her guts, I am feeding
Mutilated with a machete
I fucked her dead body, the first and lastYour life's only romance
My knife's jammed in your ass
As you die you orgasmPass on to the dead
Nerve trembling convulsions
No longer looking humanI never see them but I know they're there
Locked in my subconscious
Obscene memories I thought I'd forgotten
Haunting unrealities tear at meHold her arms, her mouth taped shut
Screams unheard outpour her gutsLayers of flesh peeling away
Languish in your own decay
Descriptions of my killings, bone chillingTerror, tear, her, virgin cuntVirgins are my victims
Their tight interiors I explore
Sharpened utensils of torture
Now inserted inside of her
Sex organs extracted for eating
On her liver, I am gnawingForbidden lust for guts
Ripped from her cunt
Tears of blood cry down her thighI ram my fist inside her hole
From her crotch piss now flows
Rectum filled with shit
I fucked her emptied body

Until she became stiff
