

# Entrails Ripped from a Virgin's Cunt

## Cannibal Corpse

Advisory - the following lyrics contain explicit language:

Alive alone how that they've gone dead but unburied  
I've seen it unfold, terrible scenes of agony  
Eyes in the darkness, echoing their madness  
The sights that have passed before them  
Watching as though it has never happened  
Now I only listen to what is not spoken  
Murder, hatred, anger, savage  
Killings I have caused more than can be counted  
Orgies of sadism and sexual perversion  
Virgin tied to my mattress, legs spread wide  
Ruptured bowel, yanked from her insides  
Devirginized with my knife, internally bleeding  
Vagina, secreting her blood-wet pussy  
I am eating on her guts, I am feeding  
Mutilated with a machete  
I fucked her dead body, the first and last  
Your life's only romance  
My knife's jammed in your ass  
As you die you orgasm  
Pass on to the dead  
Nerve trembling convulsions  
No longer looking human  
I never see them but I know they're there  
Locked in my subconscious  
Obscene memories I thought I'd forgotten  
Haunting unrealities tear at me  
Hold her arms, her mouth taped shut  
Screams unheard outpour her guts  
Layers of flesh peeling away  
Languish in your own decay  
Descriptions of my killings, bone chilling  
Terror, tear, her, virgin cunt  
Virgins are my victims  
Their tight interiors I explore  
Sharpened utensils of torture  
Now inserted inside of her  
Sex organs extracted for eating  
On her liver, I am gnawing  
Forbidden lust for guts  
Ripped from her cunt  
Tears of blood cry down her thigh  
I ram my fist inside her hole  
From her crotch piss now flows  
Rectum filled with shit  
I fucked her emptied body

Until she became stiff
