Love Isn't Real

For All Those Sleeping

Love it's a dangerous word
The kind I wish I never heard
But now I hear it from your lips
This word and I must admit
I hate when you say it
Why couldn't of you have saved it
For another boy, another night
But now we have to face this

(Walk away)
That's fine by me you're making this easy
(Making this easy)
Romance is a concept that I will never get no
(I will never get)
But neither do you so just stop pretending
That you ever thought that there'd be a happy ending
This is the ending to the story we wrote

Hey there love
You don't exist
You don't exist for me
You pull me in to tear me down
How can I believe there is love
You won't exist
You won't exist for me
To everyone who feels the same come on and sing with me

You don't know what love is
Don't tell me too believe in what cant be seen
I gave up on it when it gave up on me

I know it's hard to hear this
But it's harder to take the years I've wasted on it

Hey there love
You don't exist
You don't exist for me
You pull me in to tear me down
How can I believe there is love
You won't exist

You won't exist for me
To everyone who feels the same come on and sing with me
