

Rest Assured

Hot Water Music

even though you won't see what i'm seeing i would love for you to feel what i'm feeling- the impact and the ease after rest assured the pain will fade right outside the inspiration is told i'll carry on what i know that is what i need for my sickness- a transition to new medium breakaway from the world and stick to rhythm rest assured the pain will fade if i don't walk blindside i'll roll right if i hold sight i'll roll right i'm sure we see that same way just not from the same place i need a medium i need a balance
