

Any Ol' Barstool

Jason Aldean

I guess you heard I was pedal to the metal on a downhill slide
Girl, you know those rumors get to flyin' in a town that size
No, I didn't feel a thing when you threw that ring and slammed the door
If you wanna know the truth
You gotta go straight to the source Ask any ol' barstool in this town
Ask my new found party crowd
Sure I take more jack in my coke now
A little more high in my smoke now
Sure I stay 'til they're all long gone
And I take the long way home
But I ain't sittin' 'round
Tryin' to drown the thought of you
Ask any ol' barstool I can finally stretch out in our king size bed
If I make it that far
But fillin' in all these blanks you left isn't all that hard
No, I ain't wonderin' where you been
Or who you been with
I guess you didn't hurt me half as bad as you think you did
Ask any ol' barstool in this town
Ask my new found party crowd
Sure I take more jack in my coke now
A little more high in my smoke now
Sure I stay 'til they're all long gone
And I take the long way home
But I ain't sittin' 'round
Tryin' to drown the thought of you
Ask any ol' barstool Yeah, you think i'm down and out hidin' out, hell-bent crazy
But that ain't me, baby Ask any ol' barstool in this town
Ask my new found party crowd
Sure I take more jack in my coke now
But i'm a long way from broke now
Sure I stay 'til they're all long gone
And I take the long way home
But I ain't sittin' 'round
Tryin' to drown the thought of you
Ask any ol' barstool
Ask any ol' barstool I guess you heard I was pedal to the metal on a downhill slide
