

# Intense Mortification

## Impetigo

Cold dark night, nerves are tense  
Strange sounds out of nowhere the fog is dense  
You lay in your bed quaking with fright  
Shadows in the hallway, something's not right  
Sounds in the kitchen, your nerves swell  
There's a creature in the basement, a monster from hell  
It slimes up the steps, unholy rasping hiss  
Who knows what it wants? Who knows what it is?  
Horried, your sanity ebbs  
Tou struggle to survive  
Mortified, you know you'll never  
Leave this house alive.  
Foul smelling breath, it draws you near  
You scream for mercy, no oen can hear  
Your terror is relished, its claws ooze with gore  
Sustained by your fear, it feeds on your horror!!!!  
It's teeth retract from your skull  
Feasting on your brains  
Mortified, you know you'll never  
Leave this house again.
