

Ready For It

The Stills

I'll see you in a second, a dirty little minute
That was an hour ago, don't censor me
So picture me, there's no change the sun goes down
I'm ready for it... [2x]

Days seem to pass, crowds move too fast
About an hour ago, we hit a tree
We bruised your knee, keep on saying you love me
I'm ready for it... [2x]
Loving me is a black hole
