

# Magazines

## Otter Petter

I'll cover you in magazines my darling, cover you in magazines  
Put you on the cover, not the back page lover  
Cover you in magazines

And I would show you to everyone, to everyone

Put you on a silver screen my darling, put you on a silver screen  
You can play the lead, play a big part honey  
Put you on a silver screen

And I would show you to everyone, to everyone

So comb your hair and bat your lashes  
I'll send it out to all the masses  
Burn this town and breathe the ashes in, you breathe them in

And I would show you to everyone, to everyone  
To everyone, to everyone  
To everyone
