

Envy

116

Anything you can do, I can do better

I can do any--

I-I can do any--

I-I can do anything better than you

Better than you

Be-Better than you

Better than you

Be-Better than you

I can do anything better than you

(Tedashii)

Leggo

I was the man on guard

Yeah, couldn't tell me nothing

Smooth operator

Mic check, pushing buttons

Seeking fame, I was insecure

Somebody love me

Going backwards in my life

Call me (x2)

Benji Button

Seek what I want

Yessir, gotta have it

I don't care who it belongs to, baby ima grab

Coveting another

Under cover, it's a habit

Tragic how this envy can turn you to a savage

I can do anything better than you

I wish I had what you have just to measure with you

Come bite the fruit

Yeah, it's good

Sin severing you

Now your wife ain't good enough, any new one would do

Or your car or you job

If your life seems right

If it is the good life, you still wanna give it back

But empty is sin, and it will take charge

Don't be blind to the key

Like your boy Ray Charles

Chorus:

Better than you

Be-Better than you

(x3)

I can do anything better than you

Any better

Any-any better

(x3)

I can do anything better than you

(Sho Baraka)

Now, I've been doing this a lot lately

Some undercover hating

A brother progress, I give no congratulations

Maybe it's because I want the spot God gave him

Supposed to make him famous

While I wanna defame men

(Crazy)

Compliments are hard for me to say

I can't stand the thought of someone else getting praise

Wanting all the glory for myself, what a shame

In the end it's really in vain

Like heroine

Check who I'm addressing, no Vera Wang buddy

I thought we was supposed to be the same thing, funny

The Pharisees said Jesus did the same thing when he tried to point them to the Father on the trees where they
hung him

Mark 15:10, see the heart of that sin

Only way to beat it through repentance and confession

Men fight for your joy

Killing discontent men

If you are satisfied in the sufficiency of the Lord, then you will love the next man

(Chorus)

(Lecrae)

Simply, you having more than me just offends me

Sends me after the capital like the shift key

I'm Nevada sin city in the state of even

(I can do anything better than you)

They tryna be rich

Unless I'm richer than you

The fun in number one is the point that I'm up in front of two

I hate it when praises go to another dude
I grind to the T to stay in front of U
They should've put me on--
(Aaah! One time. You feeling me? Okay)
They should've put me on
Me raw, for eons
Ima need my compliments with EST or ER
That's best or better
When it's primetime I'm Deon
That's why I get excited when I hear you're slipping off
(Can you spell?)
I'm a B in the alphabet
But I haven't been alpha yet
Then I realized I had it all wrong like Malcolm X
My entire life is entitled tied up and tired
Trying to acquire these titles with a wire for something higher
Sire!

(Chorus)
