

Don't Go Away (Remastered)

Ace of Base

One step hesitation
One step into the night
Don't mind the weather
It's raining in my heart tonight Much more to living
Two wrongs don't make a right
You're gonna regret it
When you're looking back
On your life Don't go away
Make the most of this love I'm giving
Don't go away
Better take another look at my face
You can be what you want to be, hmm
But don't go away Some dream of fortune
Others dream of fame
Seconds after leaving
Life'll never be the same Fell for temptation
It didn't mean a thing
We'll last forever
If you turn around
Once again Don't go away
Make the most of this love I'm giving
Don't go away
Better take another look at my face
You can be what you want to be, hmm
But don't go away Do you want to be more than a picture hanging on the wall
Something to remind me of how it all went wrong
Do you want to be more than a number forgotten in a book
You're holding something special so take another look You're gonna regret it
When you're looking back
On your life Don't go away
Make the most of this love I'm giving
Don't go away
Better take another look at my face
You can be what you want to be, hmm
But don't go away Take a look
Take another look on you way
Take a look
Take another look on you way Please don't go
