Crucible

SubRosa

The cause of my affliction
Can never be resolved
A case for self infliction
Whose sin can't be dissolvedLost in a room of mirrors
There's only one way out
But suicide is easy
When all you have is doubtIdolize the demigods
The weapon of stigmata
Drowning in the grail of blood
The weapon of stigmataEach day becomes fragmented
It's harder to connect
My world seems so demented
I see nothing to respectBut strength is born from weakness
And this is where I fall
I step up to the enemy
Then rise from where I crawlIdolize the demigods
The weapon of stigmata
Drowning in the grail of blood
The weapon of stigmata
The weapon of stigmataBehind my back, in my face
Walking, stalking in my space
Think I'm closed up but I know
I mark all, watch where you go
Bide my time, make you stop
Watch your mouth, until you drop
Make me sick, I can wait
When you stumble, seal your fate
Empty threats, fucked up lies
Take you down with alibis
Useless strength, wastes on me
Crush you down, dead enemyIdolize the demigods
The weapon of stigmata
Drowning in the grail of blood
The weapon of stigmata
Penance from a rancid icon
Virgin weeping plasma
Idolize the demigods
The weapon of stigmata
The weapon of stigmata

The weapon of stigmataCrucible
