## SubRosa

The cause of my affliction  
Can never be resolved  
A case for self infliction  
Whose sin can't be dissolved  
Lost in a room of mirrors  
There's only one way out  
But suicide is easy  
When all you have is doubt  
Idolize the demigods  
The weapon of stigmata  
Drowning in the grail of blood  
The weapon of stigmata  
Each day becomes fragmented  
It's harder to connect  
My world seems so demented  
I see nothing to respect  
But strength is born from weakness  
And this is where I fall  
I step up to the enemy  
Then rise from where I crawl  
Idolize the demigods  
The weapon of stigmata  
The weapon of stigmata  
Drowning in the grail of blood  
The weapon of stigmata  
The weapon of stigmata  
The weapon of stigmata  
Behind my back, in my face  
Walking, stalking in my space  
Think I'm closed up but I know  
I mark all, watch where you go  
Bide my time, make you stop  
Watch your mouth, until you drop  
Make me sick, I can wait  
When you stumble, seal your fate  
Empty threats, fucked up lies  
Take you down with alibis  
Useless strength, wastes on me  
Crush you down, dead enemy  
Idolize the demigods  
The weapon of stigmata  
Drowning in the grail of blood  
The weapon of stigmata  
Penance from a rancid icon  
Virgin weeping plasma  
Idolize the demigods  
The weapon of stigmata  
The weapon of stigmata

The weapon of stigmata
