

# Daisies of the Galaxy

## Eels

Take heart, my little friend and push back your seat  
Soon we'll be far away, far from the street  
Where you learned how to be, not what you are  
Up on the shoulder there is a town  
With a little motel and an old movie house  
We'll go to a movie whatever it is  
Watching the movie, the world's gonna end  
And there ain't no place for a boy and his friend  
To go  
I'll pick some daisies from the flower bed  
Of the galaxy theater while you clear your head  
I thought some daisies might cheer you up
