As It Is In Heaven

Stefan Nilsson

Tonight
We're gathered here together
Desperate for your presence to come

Tonight
We're here because you love us
Join our hearts and make us one

God of glory come and fill this place
As it is in heaven
Let it be on earth
Let every heart thatâ€™s present
Give you the praise you deserve
As it is in heaven
Let it be tonight

Right here let joy arise like an anthem
We lift up your banner of love
Oh right now let every chain be broken
As freedom falls like rain over us

God of glory come and fill this place
As it is in heaven
Let it be on earth
Let every heart thatâ€™s present
Give you the praise you deserve
As it is in heaven
Let it be tonight
Here in this generation
Lord let your will be done
Creations crying out
Lord let your kingdom come
As it is in heaven
Let it be tonight

As we walk through this city
Let your love fill these streets
That we may see your beauty
Lord let it rain

As it is in heaven
As it is in heaven
As it is in heaven
Let it be on earth
Let every heart thatâ€™s present
Give you the praise you deserve

As it is in heaven
Let it be tonight
Here in this generation
Lord let your will be done
Creations crying out
Lord let your kingdom come
As it is in heaven
Let it be tonight
Let it be tonight
