

Dude Incredible

Shellac

Oh my brothers and oh my other comrades
Let's leave this place directly
and go where the females congregate
Some of us are tired and where we are is copasetic
Fuck that, let's go, we can always eat along the way Suddenly we find ourselves surrounded
By a group of strangers
We resolve to fight them
Even though we are outnumbered
Oh my brothers, oh my other comrades
This is how we fight them, it's terrific how we fight them
Hand over hand over hand over hand
This is how we travel
The higher we go, the higher we go
Hand over hand over hand over hand Suddenly, we are upon them
Sunning themselves on the beach
Some of them are none too fit but
Some of them are spectacular
Oh my brothers, oh my other comrades
If I find myself in competition
I will fight you ruthlessly
Hand over hand over hand over hand
