

I Know

Helmet

Wafer thin, the waif is in
She's chlorine, clean and portion fed
Feed the dog, slop the hog
Shine the baptist and debark the logIt's all right

I know

You're the only one
Who can show us at allGet it done, circulate
What I hear, fear motivates
So intense, so sensitive
In your head where fashion livesIt's all right

I know

You're the only one
Who can show us at allIt's OK

I know

You're mean and hard and bored
It's always, always, always
It's always something
