

# Here She Comes

## Slowdive

It's so lonely in this place  
So cold I don't believe  
And as no-one knows my name  
It's easy to pretend  
It's easy to believe  
There's a shadow on my wall  
It dances like my soul  
Dances like my soul  
It's so cold now  
I swear it will be warm  
Here she come now
