

One Step Away (Eppure sentire)

[Elisa](#)

One step away
from all I want
and I know it's all here afraid to move
afraid to choose
afraid of my own fear of times when I may not be strong
places were I may not belong but I hold on
to this feeling
that stands above all feelings
tellin' me not to let go and I live on
this feeling
the greatest of all feelings
tellin' me not to grow cold please help me get through
and let me in you
