Weird

Reef

In my arms and my legs
And my hips and my shoulders
And my neck to my feet
In my brain, letsMust I shout to be heard
Heard by you and your kind
In your offices all around, listen up for aIts a weird feeling, friend
I cant understand it at allSpeak of me when Im dead
With your hand on my face
All those memories that besot you
Wheres a life looser?Its a weird fucking feeling, friend
And I dont wish it upon no oneIn the morning when we wake
We go down to the place
When we get there we kick a ball
We kick a ball in the carSaid itd make me feel alright
Said itd make me feel alright, feel alright
Put a little smile on my face
