

# Weird

## Reef

In my arms and my legs  
And my hips and my shoulders  
And my neck to my feet  
In my brain, letsMust I shout to be heard  
Heard by you and your kind  
In your offices all around, listen up for aIts a weird feeling, friend  
I cant understand it at allSpeak of me when Im dead  
With your hand on my face  
All those memories that besot you  
Wheres a life looser?Its a weird fucking feeling, friend  
And I dont wish it upon no oneIn the morning when we wake  
We go down to the place  
When we get there we kick a ball  
We kick a ball in the carSaid itd make me feel alright  
Said itd make me feel alright, feel alright  
Put a little smile on my face
