

# Goodbye My Love

## Platinum Weird

In dust and darkness  
You saved my life  
I needed what you had  
I needed your light You took me in  
And then you watched me go  
You told me things about myself  
That I'd never know Goodbye, goodbye, goodbye, my love  
Goodbye, goodbye, you were the one  
Goodbye, goodbye, goodbye my love  
All good things come undone I hate to be leaving  
But why would I stay  
I don't have the freedom  
To choose anyway You knew I'd crumble  
Oh, you'd seen it all before  
But those are the kind of problems  
We choose to ignore Goodbye, goodbye, goodbye, my love  
Goodbye, goodbye, you were the one  
Goodbye, goodbye, goodbye my love  
All good things come undone We danced, we danced, we danced  
We danced, we danced, we danced Goodbye, goodbye, goodbye, goodbye  
Goodbye, goodbye, goodbye, goodbye  
Goodbye, goodbye, goodbye, goodbye My love, my love, my love  
My love, my love, my love  
My love, my love, my love  
Goodbye Goodbye, goodbye, goodbye  
Goodbye, goodbye, goodbye  
Goodbye, goodbye
