

God Overslept

Hate

Seven churches of deception

Burning world reflects in daemon's glare

Now you can see your mind infection

Divinity dies and god has oversleptOpen the gates forever be the evil son

Untie your soul-throw away the holy cross

Burning in the world of evil masters-ancient gods

Delight thier force wich is flowing though your soulGod has overslept

God has overslept - left bhindOpen the gates forever be the evil son

Untie your soul-throw away the holy cross

Burning in the world of evil masters-ancient gods

Delight thier force wich is flowing though your soulGod has overslept - left bhindOpen the gates forever be the
evil son

Untie your soul-throw away the holy cross

Burning in the world of evil masters-ancient gods

Delight thier force wich is flowing though your soulGod has overslept

God has overslept - left behind
