

# A Small Demand

## The (International) Noise Conspiracy

I've got a problem  
How to spend my time  
So obligated to nothing, for so long  
Nothing's really on my mind Gotta make the connections  
Force of habit or habit enforced, yeah  
When I get, you'll know I get it  
I'll know, just what I want All we ever wanted was just everything  
All we ever needed was just everyone  
This is a small demand, it's a small demand  
This is a small demand, it's a small demand All we ever wanted was just everything  
All we ever needed was just everyone  
This is a small demand, it's a small demand  
This is a small demand, it's a small demand  
Hey, baby, I can't believe  
That we are grateful for the shit we receive I've got a problem  
A matter of erection  
A question of needing the real things  
Or just a reality of me I lose control of motion  
Which hunger are you trying to feed?  
'Cause baby, what you want  
Isn't always what you need All we ever wanted was just everything  
All we ever needed was just everyone  
This is a small demand, it's a small demand  
This is a small demand, it's a small demand All we ever wanted was just everything  
All we ever needed was just everyone  
This is a small demand, it's a small demand  
This is a small demand, it's a small demand  
Yeah, baby, I can't believe  
That we're grateful for the shit we receive All we ever wanted was just everything  
All we ever needed was just everyone  
This is a small demand, it's a small demand  
This is a small demand, it's a small demand All we ever wanted was just everything  
All we ever needed was just everyone  
This is a small demand, it's a small demand  
This is a small demand, it's a small demand  
Yeah, baby, I can't believe  
That we are grateful for the shit we receive
