# Alone

## Clint Brown

You don't need majestic choirs
With awesome voices raised.
You don't need a congregation
To offer me your praise.
You don't need a mighty orchestra
To bless me with your song.
You get all of my attention
When you worship me alone

You don't need majestic choirs
With awesome voices raised.
You don't need a congregation
To offer me your praise.
You don't need a mighty orchestra
To bless me with your song.
You get all of my attention
When you worship me alone.

I love to hear you when you sing your song
and worship me alone

Oh I love it when I hear you sing your song
and you worship me alone
