

Out of the Dark

The Sidekicks

out of a lonely day
out of an empty night
out of a dark love will come for you
and there's nothing, nothing nothing you can do

go your way day to day
you pretend, that it won't come again
but wait and see one lonely dark night
it will strike before you can fight

out of a lonely day
out of an empty night
out of a dark love will come for you
and there's nothing, nothing nothing you can do

in a year, or in an hour
from a wind or from a cloud
just when you think
that you're really safe
you'll hear my name and you'll understand

out of a lonely day
out of an empty night
out of a dark love will come for you
and there's nothing, nothing nothing you can do

out of a lonely day
out of an empty night
out of a dark love will come for you

out of a lonely day
out of an empty night
out of a dark love will come for you
