U+Me=

Dan Black

With you I'm brighter,
my eyes like lighters
They shine inside my Parker

Up with the winds,
up with the skies,
up with the fears
But you know with you I'm fine,

You and me we're just fine
1 million invisible lines
Up your head and into mine
You and me we're just fine
1 million invisible lines
Up your head and into mine
You and me we're just fine

With you I'm brighter,
my eyes like lighters
They shine inside my Parker

Up with the winds,
up with the skies,
up with the fears
But you know with you I'm fine,

You and me we're just fine
1 million invisible lines
Up your head and into mine
You and me we're just fine
1 million invisible lines
Up your head and into mine
We're just fine, just fine

You and me we're just fine
1 million invisible lines
Up your head and into mine
Oh, you and me we're just fine
1 million invisible lines
Up your head and into mine

We're just fine, just fine
We're just fine, just fine
