

Landslide

Unbunny

Did you get what you wanted
Do you always get
What you came for

Maybe eyesight
Was clouded
But its always here
That i aim for

Do you know
What i am saying
Or do i gotta explain it
Slowly

Going down
Like a landslide
And there is nothing left here
To hold me

Ever wonder why
A heart so heavy
Doesn't slip down
Through your body

Gridlocked
In a traffic funnel
East lake
To the battery tunnel

Ever wonder why
(going down like a landslide)
A heart so heavy
Doesn't slip down
Through your body

Gridlocked
In a traffic funnel
East lake
To the battery tunnel

Ever wonder why
(going down like a landslide)
A heart so heavy
Doesn't slip down
Through your body

Gridlocked
In a traffic funnel
East lake
To the battery tunnel

Going down like a landslide
Going down like a landslide
Going down like a landslide
Going down like a landslide
Going down like a landslide
Going down like a landslide....
