

# Party At Ground Zero

## Fishbone

Party at ground zero  
Every movie starring you  
And the world will turn to flowing  
Pink vapor stew  
Please do not fear 'cause Fishbone is here to say  
Just have a good time, the stop sign is far away  
The toilet has flushed and green lights are a ghost  
And drop drills will be extinct  
Speed racer cloud has come  
They know not what they've done  
Sin has just won  
The planet is a crumb  
Johnny, go get your gun  
For the commies are in our hemisphere today  
Ivan, go fly your MIG  
For the Yankee imperialists have come to play  
Johnny goes to Sally's house to kiss her goodbye  
But Daddy says to spend the night  
They make love till the early morning light  
For tomorrow Johnny goes to fight  
Johnny, Ivan, Ian

Everybody come along  
For our nations need new heroes  
Time to sing a new war song  
Party at ground zero  
Every movie starring you  
And the world will turn to flowing  
Pink vapor stew  
Please do not fear 'cause Fishbone is here to say  
Just have a good time, the stop sign is far away  
The toilet has flushed and green lights are a ghost  
And drop drills will be extinct  
Speed racer cloud has come  
They know not what they've done  
Sin has just won  
The planet is a crumb  
Party at ground zero  
Every movie starring you

And the world will turn to flowing  
Pink vapor stew
