

# Down And Dirty

Shannon McNally

Come on in through my screen door  
Tell me all your cares  
I'm here to lend my ears  
Where you been lately  
Haven't seen much around here, Oh no  
Been hiding out in the shade  
Your skins all gone to gray  
Did you eat today?  
When you coming home to stay?

Don't you know I love you  
When you're down and dirty  
Don't you know I love you  
When you're clean  
(Repeat)

If you could see what I see  
You'd see a boy who can't face things  
Silent is all he is  
You been looking around without your vision  
Hearing things without listening  
Suffering but feeling no real kind of pain  
You know I'd like to help but  
When I let you ride for free  
You drag me into the cheap cheap scene  
(Cheap cheap scene yeah)

Don't you know I love you  
When you're down and dirty  
Don't you know I love you  
When you're clean  
(Repeat)

You got this thing against  
Living with the best  
But you sure like to visit me don't you  
When the streets get too cold  
When you're feeling weary and old  
When your chances for survival  
Looking oh so slim

When all of a sudden you won't live to be eighty

Maybe ninety

Maybe a hundred and ten

Don't you know

Don't you know

Don't you know

Don't you know I love you

When you're down and dirty

Don't you know I love you

When you're clean

(Repeat)

Oh I know everything ain't

Always what it seems be to

Don't you know I love you baby

Any way I find you

Anyway you come

Any way I find you

Anyway you come

Come on

(Repeat until end)
