

Useless

Buzzcocks

Life's full of disappointments
Wonder where the good times went
Craving for recognition
Rather than accomplishment Nobody cares what your name is
And it's gonna stay that way
Everything is off the record
Face it, there's nothing to say Life's only temporary
And then you fuckin' die It's a useless situation
Can't you see that I'm between
Patience and persuasion
Every single time Mingling amongst the masses
That much would be enough
He used to be my rival
Quit when the going gets rough I never witnessed the moment
When all you ever wanted was me
Understand, now the penny's dropped
Pissed off, bunny not happy Don't want to think about it
It makes me fuckin' mad It's a useless situation
Can't you see that I'm between
Patience and persuasion
Every single time It's a useless situation
Can't you see that I'm between
Patience and persuasion
Every single time I never witnessed the moment
When all you ever wanted was me
Understand, now the penny's dropped
Pissed off, bunny not happy Life's only temporary
And then you fuckin' die It's a useless situation
Can't you see that I'm between
Patience and persuasion
Every single time It's a useless situation
Can't you see that I'm between
Patience and persuasion
Every single time
