

Devilment

Echo & the Bunnymen

Devilment's accomplishment
The devil remembers you found
Your true vocation
To live beyond your station_____ leaves wrapped in quotations
Rolling out saliva on salvation
All the more
And all that you've been looking forFloored by design
Speak as you find
Speaking as you find
All the one skin
All the one mindFloored by design
Speak as you find
Speaking as you find
Staggering blind
As you chase time
Waste timeBlank expression, blank verse
It could get worse
If all your past precedes you
To find the soul to take you_____ shout of indignation
Lost their worth
And meaning in translation
Unhappiness will quantify the moralFloored by design
Speak as you find
(speaking as you find)
All the one skin
All the one mind
(one mind)Floored by design
Speak as you find
(speaking as you find)
Staggering blind
As you chase time
As you waste time
As you waste timeDevilment embarrassment
The face in your old mirror
Now just hates you
And you _____ youEyes lost in contemplation
Hands are trembling
Heads gone on vacation
And settled scores are all

That you've been fighting forFloored by design

Speak as you find

(speaking as you find)

All the one skin

All the one mind

(one mind)Floored by design

Speak as you find

Speaking as you find

Staggering blind

As you chase time

As you waste time

As you waste time

You waste time

You waste time

You waste time
