

Anthem

Kamelot

What's a miracle if life itself is not
Who am I to praise his worth with a hymn
I may stumble over words that I forgot
Just as life itself surely begins
Sing me a song for the mountains to move
Sing me the anthem of life
Sing me the anthem of life
I am skeptical, I like my glass of wine
I don't know your name or what I am to do
One day you'll wonder why so I read between the lines
And you will sing for me the way I sang for you
Sing me a song for the ocean to part
Sing me the anthem of life
Sing me the anthem of life
Sing me the anthem of life
And so another page is turned
I pray I understand what's happening
But if anything, I do know this
I'll be the best I can
Sing me a song like the angels rejoice
Sing me an anthem of life
Sing me the anthem
Sing me the anthem of life
