

Represent (I Like That)

DOM KENNEDY

[Intro]

Where you at, J Poundz?

[Verse 1]

I had passed on this beat when I first heard it

Now its murdered, like the Ink

Irv Gotti never rode a Ducati

If you pull up on me

Do it fast make it sloppy

Told her both my parents black

But you could still call me papi[Hook]

Ooh, I like that

Ooh, I like that

Yeah, I like that

Ooh, I like that[Verse 2]

Ooh, this was always plan A

Let me know what you tryna B

I'm the one they tryna see

Give these girls all kind of D

Dope Dom and a dollar menu

I'll continue so the thousand walk up tickets in Diego switch the venue

Rest in peace Tony Gwynn, I just see the field different

Had to flood the whole bracelet, man this shit just feel different

My brother Larry told me yes

He coming out to rep that West

Made it back to the hotel to wash my face and catch my breath

Another night at momma's shelter watching movies by myself

Or I could go downstairs, find a cutie and get some help

I be sagging on stage, damn, I should of just worn my belt

Tryna put them ice cubes on your leg and make it melt[Hook]

[Bridge]

Do your thing, girl

Go on represent

Go on represent

Go on, go on represent

Told her do your thing girl

Go on represent

Go on, go on represent

Go on represent

Ooh

[Verse 3]

Her Instagram blocked, it's feeling like she not it
No matter what kind of car I'm in, I'm looking like the top pic
She told me, "lets go to the bridge Dom, I wanna watch this"
So, I drove to pick her up the other day, she wasn't ready
Walking up to her room, only us, not a sound
Wrapped in a green towel wiping lotion all around
I used the whole bottle messing with you, better know it
Lay down, I'll pour it
After that you better throw it[Hook](x2)

[Outro]

Go Ares, it's your birthday
All the Libra's, it's your birthday
Go Taurus, it's your birthday
All them Cancer's, It's your birthday
I said
Go Leo's, it's your birthday
All them Scorpions, it's your birthday
Go Pisces, it's your birthday
All them Virgo's, it's your birthday
Go Aquarius, it's your birthday
All the Gemini's, it's your birthday
Hey Sagittarius, it's your birthday
All the Capricorn, it's your birthday
Ooh
