Lies

Glen Hansard

I think it's time, we give it up And figure out what's stopping us From breathing easy and talking straightThe way is clear if you're ready now The volunteer is slowing down And taking time to save himselfThe little cracks they escalated Before we knew it was too late For making circles and telling liesYou're moving too fast for me And I can't keep up with you Baby, if you slow down for meI could see you're only telling lies, lies, lies Breaking us down with your lies, lies, lies When will you learn? The little cracks they escalated And before we knew it was too late For making circles and telling liesYou're moving too fast for me And I can't keep up with you Maybe if you'd slow down for meI could see you're only telling lies, lies, lies Breaking us down with your lies, lies, lies When will you learn? So plant the thought and watch it grow Wind it up and let it go
