Heroic Mood

Najwa

We are just the minor threat
Going strong into our favourite shape
Me and you in a heroic moodRemember when I moved you
And everything was moving too
You promised to bring me to my senses
Upstairs in the daytimeMy heart's still broken
But my eyes are open
Who cares if you're in love with me
If I'm in love with the world
If I'm in love with the worldWherever the world was
We were somewhere else
Wherever it was
We were somewhere else
When we were on our way
To the edge
To the edgeI'm not in control anymore
We have to go for it slow
Remember when I moved you
And everything was moving tooNow the road is empty
I bite, forbidden fruit
You have already betrayed yourself
Forgotten and gone
It's in our bonesWhen we were something else
When we were somewhere else
Wherever the world was
We were somewhere else
Wherever it was
We were somewhere else
When we were on our way
To the edge
To the edgeShout!
Sha!
Go ahead!
Gone!
Take care...Else
