Face To Face

Yes

Here we are trying to mend all the broken hearts
In a world where the pain is the fear
Ain't no doubt there's a method to madness here
Set your clock to the start of a brand new year
Shine your heart to the universe and get the news
Not alone never have been, never will be
See the truth, not to mention the promise made
See them all, see them all high on Judar rhythm
We began at the very first spring
How the promise will come when the promise is made
We will sing at the very first spring
That the promise will come when the promise is made
Promise is made, promise is made
Shake me up, take me up
Face to face
Lift me up, shake me up
Face to face
Make me real, make me longing to see you smile
Shall we dancing, shall we be the dancing down under
In this life of lives, are we ready to take the chance
Moving to the rhythm, here at last to

Believe
To believe
We began at the first real spring
How the promise will come when the promise is made
We will sing at the very first spring
That the promise will come when the promise is made
We began at the first real spring, ya
We will sing at the very first spring, ya
We began at the first real spring
We will sing at the very first spring
How the promise will come when the promise is made
Promise is made, promise is made
We began at the first real spring
That the promise will come when the promise is made
We will sing at the very first spring
That the promise will come when the promise is made
Promise is made, promise is made

Shake it up, take me up, face to face
Face to face, face to face
