

Overdone

Bombay Bicycle Club

Here comes the doctor shut the sunlight out, I feel the grind
And I keep the world awake to be asleep
Throughout the day is all I want I sit and wait for wasted time
My faith was strong, my head was numb
I feel a calm, I'm overdone (to find you) And I keep the world awake to be asleep
Throughout the day is all I need
Tell me
Was it enough when we were first in love to gland the seed
And just leave I sit and wait for wasted time
My faith was strong, my head was numb
I feel a calm, I'm overdone (to find you)
