Lorde

God bless, resist
Calm down
Contact, reach us
Go wildI'll taste your name
I'll tell off these spades
Watch thisCalm down, teach us
The roads
Your contact
It keeps us provokedRemove your veil every last one
I'm on your team, let's goFace to face, not scared
My custom made nightmares
Armed with teeth in fashion
Now all we need is nice shotGod bless, resist
Come down
Our contact, reach us
Go wildRemove your veil every last one
I'm on your team, I'll be in it tooRockets take you all
To-tonight, it's timeTake me
I don't care where
Take me
