

# Carry me

## spring in paris

Pain is a forest we all get lost in  
Between the branches hope can be so hard to see  
And in the darkness we've all got questions  
We're all just trying to make sense out of suffering but  
    You say I am blessed because of this  
    So, I choose to believe  
    As I carry this cross, You'll carry me  
        Help me believe it  
    Fear is a current we all get caught in  
    And in its motion faith can be so hard to find  
        And we all falter 'cause we're all broken  
    We're all just trying to turn the shadows into light but  
    You get glory in the midst of this  
    And You're walking with me  
    And you say I am blessed because of this  
        So, I choose to believe

As I carry this cross, You'll carry me  
And I know Your promises are faithful  
And God, I've seen Your goodness in my life  
    And oh, I've found Your mercy is a river  
        Your love is an ocean wide  
    You say I am blessed because of this  
        You get glory in the midst of this  
        And You're walking with me  
    And You say I am blessed because of this  
        So, I choose to believe  
    As I carry this cross, as I carry this cross  
    'Cause as I carry this cross, You'll carry me  
        You'll carry me, God  
        You'll carry me  
    And Your love is an ocean wide
