

# Always Never

## Fastball

Strange town, shake down  
Sink or swim  
Old flames, stage names  
Shed your skin Always and never  
We change like the weather Long gone, house young  
Memories  
Closed doors, cold wars  
You and me Always and never  
We change like the weather  
When will you ever  
make up your mind (come on) (x3) Jaded, elated  
Time of day  
Time out, freak out  
Games we play Always and never  
We change like the weather  
When will you ever  
make up your mind (come on) (x7)
