Fear Of Flying

Vitamin C

Boom, boom, boom
You can come into my room
Lights are on, lights are off
Everything will never stop
Bus or car or bike or train
I will drive insane your brain
Same old rock and roll, come on lets go
I'm afraid to lose control
Won't give up, won't let go
I got a fear of flyin'
Anywhere you wanna go
Fast or slow just so you know
I'm the one who's drivin'
(Drivin')
I got a fear of flyin'
(Flyin')
Me, me, me
That's the way it's got to be
I'm on top, I'm on bottom
You're in the middle, that's how I like it
On the roof, on the floor
You know what you came here for
Same old rock and roll, come on lets go
I'm afraid to lose control
Won't give up, won't let go
I got a fear of flyin'
Anywhere you wanna go
Fast or slow just so you know
I'm the one who's drivin'
(Drivin')
I got a fear of flyin'
(Flyin')
I got a fear of flyin'
I got a fear, I got a fear
I got a fear, I got a fear
Bye, bye, bye
Call me if you change your mind
If I'm too hot and you can't handle it
Keep goin', change the channel

It could be so deelish
If you weren't such a bitch
Same old rock and roll, come on lets go
I'm afraid to lose control
Won't give up, won't let go
I got a fear of flyin'
Anywhere you wanna go
Fast or slow just so you know
I'm the one who's drivin'
(Drivin')
I'm afraid to lose control
Won't give up, won't let go
I got a fear of flyin'
Anywhere you wanna go
Fast or slow just so you know
I'm the one who's drivin'
(Drivin')
I got a fear of flyin'
